Preface

The *Directory of Iranian Officials* identifies individuals who hold positions in selected government, party, or other public organizations in the Islamic Republic of Iran. It also provides a guide to the internal structure of some of these organizations, and an explanation of their functions where necessary.

Dates of Information. The date columns list the date an individual either assumed or was first identified in a position, and the date of his most recent identification in that position. Late dates are not included for members of the Assemly of Experts and the Islamic Consulative Assembly, on the assumption that the incumbents hold their positions for a specified term.

Transliteration. The transliteration of organization and personal names from Farsi and Arabic follows Department of State guidelines, with minor revisions.

Personal Names. Many Iranian surnames are hyphenated. Listings in this directory are by the first element of the surname, except where a figure is best known by the last element.

Clerical Titles. Where an individual is known to be a Muslim cleric his title is given. In Shi'a Islam different titles are used to note varying degrees of importance:

— *Mullah* is a general term for a religious functionary, usually a cleric;

— *Hojjat ol-Eslam* (proof of Islam) and the more prestigious

— *Ayatollah* (shadow of God) are titles applied as tokens of respect by the followers of a cleric, with the consensus of more senior clerics;

— *Ayatollah Ozma* (grand ayatollah) is applied to a handful of the most important religious leaders;

— *Imam* (spiritual leader) is the title that applied to Ayatollah Ozma Ruhollah Khomeini (deceased June 1989).

An index of major organizations and an index of personalities follow the directory listing. Duplicate names in the personality index refer to different individuals.
